VAMPIRE NAME:

AGE:

What type of Vampire are you? (pick 1)

Rebel: Don't worry, I'm going to give you a cause. I know you yearn to upend society, bring chaos to order, show the Them who's been keeping us down that we will rise up. Some of you may be philosophers, your words will inspire those with less soul fire to join us. Some of you may want to wreak more tangible havoc. I get it. Hold tight. Everyone will have a part to play.

Elite: You have savvy the rest of us lack. The patience to infiltrate, become leaders in business, politics and academics. Change the world from within the current system. You are cool, smooth, clever, you keep your emotions and motives hidden as you manipulate the world to your bidding. You will be our starting front lines and our final face.

Artist: Those of you who live on the creative plane. Painters, sculptors, makers, actors, musicians. Your art is seen by all. You can reach even the most remote among the Vampire community with hidden messages, you can convince humans that we're to be loved not hated. You can subtly influence everything with just a touch of your creativity. We have so much to do together.
